We Would Like to Get to Know You Better

This simple questionnaire will help us understand what is important to you. We look forward to serving your needs with excellence.

1. Are you happy with the appearance of your smile? Circle one: YES / NO

If not, are you ready to make an investment to improve your smile?
Circle one: YES! / Maybe (depends on cost) / NO

2. Check the box that best applies to you:

“Fix me up Doc!” I need a lot of details. I would like to be informed of all treatment that might help me prevent future toothaches, preserve function and improve appearance. I want to avoid bigger costs down the road. I’m ready to invest and do what needs to be done.

“Middle of the road” I do want to correct existing dental issues and prevent future ones, but I have to pace myself due to finances or time constraints. I want to resolve dental disease and major structural issues, but I want to prioritize and take my time getting it done. I may have to make comprised choices depending on cost.

“Whoa nelly” I am mainly concerned about dental disease that may be currently underway (cavities, gum disease). I will have to address other issues as they arise. I may have to balance financial priorities and base my treatment on which is most important.

“Just get me out of pain” I only see the dentist when something hurts or broken. After you fix this, I will probably not see you again until something else bothers me. Just being realistic. ☺
